

Internship Committee Report:

Abigale Parker, a recent graduate of College of the Atlantic and currently working as a gardener for the Rockefeller Garden, has completed her winter internship. She catalogued all 1,045 of Patrick's books in using an app called "Book Tracker" to record Title, Author, Publisher, Publish Date, Location and ISBN# of each book as information was available.

Abigale also worked with a current COA student, Mairi Connelly, showing her the resources of the library and the current exhibit to use as reference for her senior project. She has also arranged for a screening of her copy of the film "Women in the Dirt" as part of the Summer Program Series on Monday Sept. 15.
