

**Program Committee Report, Beatrix Farrand Society**  
30 June 2012

Since the May 26 Board meeting, we've hosted one program, on June 9, when Bill Cullina (Director of Coastal Maine Botanical Gardens) spoke on "Unraveling and Re-raveling the Web of Life." His presentation provided a thought-provoking explanation of how plants' ranges change over time and how species appear and disappear over time. Fourteen people attended (13 members and 1 nonmember). Income for this event totaled \$165 (includes a \$15 gift). Bill's speaking fee was \$500, and his travel expense was \$125.
